# Expressions of Interest sought to lease/rent residential properties to local authorities

The Department of Environment, Heritage and Local Government, on behalf of local authorities, invites expressions of interest from property owners for the provision of residential properties under the long term leasing initiative.

Under the leasing initiative, local authorities will:

- Lease properties for 10-20 year periods,
- Manage tenants and maintain the properties for the lease term and
- Guarantee rent for the lease term

Local authorities will also consider submissions for shorter term rental options where the owner will retain landlord and property maintenance responsibilities.

Properties will be considered if they:

- are of good quality and comply with all planning and building regulations and
- are in areas where the local authority has a need for housing.

Full details, including information on how to submit an expression of interest are available on **[www.housing.ie/leasing](http://www.housing.ie/leasing)**
